

Pratik Shingala

Data Analyst (in training) | Operations & Insights

Berlin, Germany • +49 176 93192 102 • Pratikshingala03@gmail.com

PROFILE

Analytical and detail-oriented data analyst in training with hands-on experience optimising inventory operations through real-time tracking and sales-trend analysis. Currently pursuing a B.Sc. in Computer Science and applying strong communication, teamwork, and multitasking skills to deliver actionable insights in fast-paced environments.

PROFESSIONAL EXPERIENCE

Junior Operations Manager

Nov 2023 – Present

Bürgermeister · Berlin

- Oversee employee records, payroll budgeting, contract administration, and meeting coordination.
- Designed and implemented a new staff-scheduling system that reduced shift conflicts and improved workforce utilisation.
- Manage vendor relationships and track departmental budgets to control costs and support growth initiatives.

Junior Data Analyst

Oct 2022 – Oct 2023

Amazon · Munich

- Analysed sales trends and customer feedback to identify opportunities and recommend strategies to increase revenue.
- Monitored real-time inventory across multiple warehouses to enable proactive supply-chain decisions and reduce stockouts.
- Prepared actionable reports and visualisations to inform management reviews and operational adjustments.
- Collaborated with cross-functional teams on performance management and employee relations.

Working Student – AI-Powered Developer Tools

Oct 2020 – Oct 2022

Amazon · Surat

- Developed and maintained AI-powered developer tools that integrated large language models into the software development life cycle to support code quality and developer decision-making.
- Built features to detect developer knowledge gaps, suggest code improvements, and automate routine checks to increase developer productivity.
- Collaborated with engineers and product managers to design experiments, iterate on models, and measure impact.
